

EDINBURGH UNIVERSITY PRESS

JOURNAL LIBRARY RECOMMENDATION FORM

Please forward this form to your librarian, library liaison, or serials review committee

Dear Librarian/Library Liaison,
I recommend that the library subscribes to the following journal:

Title: **Katherine Mansfield Studies**

ISSN: 2041-4501

E-ISSN: 2041-451X

My reasons for recommending this journal are:

- USAGE** I will regularly use this journal and recommend articles to colleagues and students.
- ENHANCEMENT** This journal will enhance the Library's scholarly collection and benefit the research/teaching needs of our institution.
- CONNECTION** I am a member of the editorial board and/or a regular contributing author.

Additional comments: _____

Please include this journal in your next serials review meeting with my recommendation to gain access to this journal for our institution. Thank you.

INFORMATION FOR LIBRARIES

Edinburgh University Press provides electronic access to all journals via EUP Journals Online. Electronic access includes the current volume and all back issue content. If an online subscription is cancelled at a future date, all volumes from the years subscribed to will be available in perpetuity.

The following options are available to institutions:

- *Print + Online Subscription*: electronic access and a print copy of each issue of the volume.
- *Print Subscription*: print copies only at a 20% discount off the combined print + online rate, and does not include electronic access.
- *Online Subscription*: electronic access at a 28% discount off the combined print + online rate, and does not include print copies.

FEATURES OF EUP JOURNALS ONLINE

Access for Subscribers

Individual subscribers can access all material they have subscribed to from any computer with Internet access, simply by logging into the site. Institutional subscribers have access controlled by IP range and therefore have automatic access without logging in. Proxy IP authentication is used when users do not connect directly from the IP address of individual computers, but rather use a proxy server for security.

Pay-Per-View

The site enables non-subscribers to pay per view, where an article can be accessed for a limited period (48 hours).

Reference Linking and PDF Plus

Individual articles are available as PDF and PDF Plus files. PDF Plus is an enhanced PDF file format which links citations to external abstracting and indexing databases such as CrossRef, so that readers can quickly retrieve abstracts for the articles referenced. Clicking a linked reference in a PDF Plus file will take the reader directly to the abstract for that article on its home publisher website, or to an electronic aggregator

Trial Access

Please contact journals@eup.ed.ac.uk to request a free 30-day trial.

Advanced Search Functions

Abstracts and contents are freely viewable to all users of the website. The search function of the site allows easy access to specific content, and advanced search criteria include Title, Author, Full Text, Keywords, ISSN, Article DOI, Publication Dates and Subject Area. Searches can also be saved for future use.

Additional Features

- Article citation tracking
- Bibliographic Information Downloads
- Table of Contents Alerting Service
- Supplementary Material
- CrossRef Cited-by Linking (formerly Forward Linking)
- Featured Articles
- News and Announcements

Free Sample Issues

Free Sample Issues of EUP journals are available on EUP Journals Online at www.eupjournals.com. Simply visit a journal's homepage and click the "All Issues" tab to be directed to the free content.
